

Dear Referee

Our volunteer lines person are parents, they are often people who have not played soccer themselves.

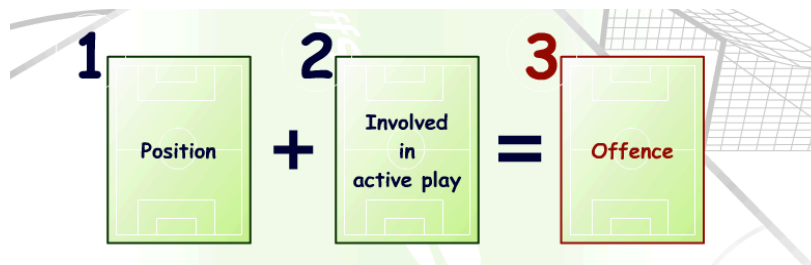

Could you please spend two minutes in a pre-match briefing, to confirm the following issues with both lines persons prior to the game? In our experience, these issues are often misunderstood. Thank you.

Please confirm that our lines persons understand:

1) when the ball is **out of play** or **across the goal line**;

2) when the lines person should flag for an **off-side position**, and whether there is an **advantage** to that player or whether that player is **interfering with play**;

3) that the lines person should remain **in line with the last defender** during the match.

Thank you for your assistance.

Kind regards

Subiaco AFC
